

**Additional Reference Entities From April 19, 2013 to July 26, 2013 for Table 6: Gross and Net Notional Top 1000 Reference Entities ("Table 6")**

DTCC is publishing the following special report to identify Reference Entities that were not individually specified in Table 6 of Section I on this website during the period of April 19, 2013 to July 26, 2013. During this period data of the impacted Reference Entities were included as part of the "Remaining Single Names" aggregated line item, rather than as a unique named Reference Entity.

Definitions of the terms used in this special report are as follows:

**Week-End Date** - The reports are publicly published on a weekly basis based on the prior Friday's final open position

**Gross Notional** - The sum of CDS contracts bought (or equivalently sold) for all Warehouse contracts in aggregate, by sector or for single reference entities displayed. Aggregate gross notional value is calculated on a per-trade basis. For example, a transaction of \$10 million notional between buyer and seller of protection is reported as one contract for \$10 million gross notional, as opposed to two contracts worth \$20 million.

**Contracts** - The number of CDS contracts bought (or equivalently sold) for all Warehouse contracts in aggregate for single reference entities displayed. Contract data provided is calculated on a per-trade basis. For example, a transaction between buyer and seller of protection is reported as one contract, as opposed to two contracts.

**Reference Entity, Sector and Market Type** have the same definitions as included in Table 6.

**Disclaimer:** The content, information and any materials ("data") provided in this study are on an "as is" basis. DTCC expressly disclaims all warranties, expressed or implied, as to the accuracy of any data provided, including, without limitation, liability for quality, performance and fitness for a particular purpose arising out of the use of the data. In no event shall DTCC be liable for damages, including, without limitation, damages resulting from lost profits or revenue, or any special, incidental, or consequential damages, arising out of the use of the data. Any unauthorized use, including but not limited to copying, distributing, transmitting or otherwise of any data appearing herein may violate the intellectual property rights of DTCC under any intellectual property laws such as copyright laws, trademark laws and communications, regulations and statutes.
