How to Use This Guide

This guide presents in readable format information contained in NSCC's Rules & Procedures, Addendum A (<http://www.nsc.com/legal/nscrules.pdf>). Whereas the fee structure in the Rules & Procedures is organized according to the flow of a trade from pre-clearing through post-clearing, this guide attempts to organize related processing fees alphabetically by type of fee.

The guide is designed to be used primarily in electronic form so that users may easily reconcile their accounts in conjunction with DTCC's new electronic billing system. Underlined entries are links to either internal cross-references or to an entry in the glossary at the end of the guide. The guide may also be printed on hard copy; however, the information may not be as easily discoverable in that format as it is electronically.

Automated Customer Account Transfer Services (ACATS)

FEE NAME	AMOUNT (\$)	CONDITIONS	FEE ID
Asset Input			
Asset addition	0.06	Per asset added	2212
Asset change	0.06	Per asset corrected or changed	2212

Wealth Management Services

FEE NAME	AMOUNT (\$)	CONDITIONS	FEE ID
----------	-------------	------------	--------

Insurance & Retirement Services

Notes on pricing

- All I&RS transaction fees are per side and both sides are charged for each item, except as noted.
- Submitter will be charged per NSCC-Accepted and NSCC-Rejected input transactions.
- A group of affiliated carrier participants or affiliated distributor participants may be entitled to family pricing for I&RS services.

The group must be affiliated by a common ownership scheme. One of the affiliated entities will be assigned the main (or 'parent') participant number. All participant numbers under a single parent, including that parent, will be considered a family. A group of carrier participants can qualify as a family. A group of distributor participants can qualify as a family. However, a family cannot have a mix of carrier and distributor participants.

For all tiered I&RS fees (which include Asset Pricing, Commission and Compensation, Financial Activity Reporting, Initial Applications, Positions and Valuations, and Settlement Processing for Insurance), all volume related to a family of participants will be aggregated when calculating tier levels.

Click [here](#) to view the Fee Schedule and the I&RS Family Billing Calculator for exact tier calculation examples.

Insurance Minimum Account Fee	250.00	Per Month, per account. This fee will not apply when the monthly charge exceeds the \$250 minimum fee	2607
-------------------------------	--------	---	-------------

OW Pair -Off	0.35	Fee for each obligation closed due to OW Pair off	2570

NSCC Pricing Policy

The Corporation's policy is to retain only those revenues which are required to maintain an adequate revenue base in order to liquidate current production costs, provide for a continuance of product enhancements and development, provide for a discount when volume levels equal or exceed projections and provide for retained earnings as directed by the Board. In order to meet such objectives, the Corporation will:

- If the Corporation's gross billable revenues before adjustment (i.e., revenues before discount) exceed the approximate level of costs, adjust downward (i.e., discount) participants' invoices.
- If the Corporation's gross billable revenues before adjustment (i.e., revenues before surcharge) are less than the approximate level of costs, adjust upward (i.e., surcharge) participants' invoices.

Both the discount and the surcharge when applicable will be reflected directly on participants' invoices.

Application of Fees

All fees will be charged uniformly to all participants and collected through the settlement system if possible.

NSCC Glossary

TERM	DEFINITION
